

## **Uniteam Newsletter May 2018**

### **Uniteam Group adding 2000 highly skilled programmers to the staff!**

In order to be able to manage the continuously growing demand for development in our product suite, Uniteam Group has entered into a partnership with Advanced Systems Development Co., Ltd. (ASDC) in China.

The headquarter located in Beijing with branches in Japan, Shanghai, Dalian, Shenzhen, Chengdu.

ASDC focuses on software service industry, dedicating to provide comprehensive information technology services, professional industry application solutions, consulting services, and independent software products business. ASDC is focusing on the future, providing leading high-tech software products and platforms for customers in several industries including digital resources management, intelligent logistics and more. Disney Corporation, IBM, Hewlett Packard, Pioneer and Air China are among the other partners using the services of ASDC.

“.....entering this partnership with ASDC extends our abilities to add resources on demand and enables us to develop and deliver future versions of our products to the market even faster...”, says Uniteam Group CEO Mr. Christian Høy.

### **GDPR and newsletters from Uniteam Group**

As from this coming Friday the GDPR (General Data Protection Regulation) is in force.

Push the button!

Apart from our products being compliant with the new regulation, we would very much like you to confirm that you want to receive our newsletters in the future. As from end of business day Thursday may 24<sup>th</sup> we are not allowed to send you any information or newsletters to update you on our activities, so unless you click the big red button and send us an empty mail back as your acceptance, this newsletter could end up being the last information you get from us.
